MOORE'S GOGO SHAMPOO
WASH.

THIS WASH HAS PROVED ITSELF TO BE THE
BEST PREPARATION EVER PRE-
SENTED TO THE PUBLIC.

THE Base of this compound is made of
Gogo Root. The natives of the Philip-
pines Islands never use anything else for
washing their hair; you never see them bald,
and it is quite common to see the females
with hair from 5 to 6 feet long. By using
this SHAMPOO WASH as directed, you
will never be bald. The Proprietor offers
the Wash to the public, being entirely con-
fident that by its restorative properties
will easily arrest decaying hair, completely
eradicate scurf, dandruff, and cure all dis-
eases of the scalp; it does not contain any
poisonous drugs, but, by its cooling proper-
ties allays the itching and fever of the scalp.

Mr. MOORE has succeeded in being able
to put this Wash up in bottles without al-
lowing it to ferment, and he will guarantee
it to keep any length of time in any climate.

Per Clara, for Haiphong, 12 Chinese.

MEETING OF THE LEGISLATIVE COUNCIL.

A meeting of the Legislative Council was held this afternoon. Present:—His Excellency Sir G. William D'Este Vaux (the Governor); Hon. Frederick Stewart, Colonial Secretary; Hon. J. Russell, Acting Chief Justice; Hon. E. L. O'Malley, Attorney General; Hon. H. E. Wodehouse, Acting Colonial Treasurer; Hon. J. M. Price, Surveyor General; Hon. W. M. Dando, Captain Superintendent of Police; Hon. P. Ryrie, Hon. Wong Shing, Hon. John Bell Irving, Hon. B. Layton, and Mr. A. Seth, Clerk of the Councils. Absent:—Hon. C. D. Chater.

THE PROPOSED HOME FOR GIRLS.

The Colonial Secretary laid on the table a minute recommending a vote of \$8,000 for the building of a Home for Girls.

The minute was referred to the Finance Committee.

THE REPORT OF THE FEVER COMMISSION—AN EXPLANATION.

His Excellency—Before proceeding with the other business I should like to refer to a matter which was omitted at last meeting and for the omission of which I must take blame to myself. I refer to the report of the Fever Commission, which ought to have been laid on the table at last meeting. I did not notice that it had not been laid on the table until I read the account of what took place at the Council. I can't conceive any reason why it should not be laid on the table at once.

The reason probably why the water was overlooked at last meeting was that a question was asked of the Commission with regard to a certain specific recommendation on which I wished to have some doubts cleared up. I have not received any answer to that question, and I have not been able to find it in consequence. I must take blame to myself for the oversight, and so far as I know there is no reason why the report should not be laid on the table at once.

The question I asked was with reference to a comparatively trivial matter. The Commission recommended the planting of the Eucalyptus tree over the Colony, and my experience in several colonies of such experiments points to the fact that they are perfectly useless in the Tropics. I find there has been a similar experience to this in Colony. These trees have been tried again and again in tropical colonies that I know of, and the result has been the same in all, namely, that the trees grow up very fast and reach a considerable height but never make wood. The *Eucalyptus Globulus* is not a native even of tropical Australia, but even if it were the conditions there are such that although the trees might flourish there they would not flourish in such damp climate as that of Hongkong and most islands. There are no recorded instances at all events so far as I know—and I have tried in various directions to find out whether there are any instances—of the *Eucalyptus Globulus* having been made to grow well in the tropics. They certainly grow up high, sometimes attaining a height of 40 feet, but they never make wood and the result is that the first strong wind blows them down. I asked the Fever Commission on this subject, but I have not got an answer and I suppose that is the reason why the Report has been overlooked, for it could have been laid on the table at once, there being no reason whatever why it should not.

Hon. Mr Ryrie remarked that a species of gum-tree grew in Calcutta and attained a very great height, but whether the *Eucalyptus* or not he did not know.

His Excellency—Of course if there is a doubt as to whether the *Eucalyptus Globulus* will grow here it would be well worth while planting a few, but we would hardly be warranted in going to any great expense in planting. I know myself that trials have been made in four different colonies with climates similar to this, and Mr Ford tells me that two or three attempts have been made here, and there are one or two strong-growing trees of the species still to be seen having a precarious existence, but they don't make wood.

VOTES PASSED.

The votes passed by the last meeting of the Finance Committee were passed by the Council.

SUPPLEMENTARY APPROPRIATION BILL 1887.

This Bill was read a second time and referred to the Finance Committee.

AMENDMENT BILL 1889.

This Bill was read a second time and referred to the Finance Committee.

NATIONALIZATION ORDINANCES.

There were read a second time Orders for the nationalization of John Wong Chum, otherwise Wong Yin Shang; of Tam Lu-tsun, otherwise Tam Fuk sin, and of Li O Mi, otherwise Li Tai Fung.

THE EUROPEAN DISTRICT ORDINANCE.

The Attorney General moved the second reading of this Bill. He said—I explained at the first reading that the object of the Bill was to include a certain portion of the Hill District within the district to which the restrictions as to Chinese buildings under the Ordinance of 1888 apply.

The Captain Superintendent of Police pointed out that the Southern and Western boundaries of the district specified in the bill, namely the carriage road to Aberdeen, included within them two of the oldest villages on the island and even included the carriage road at Aberdeen.

The Surveyor General thought the Captain Superintendent of Police was under an apprehension.

The Captain Superintendent of Police pointed out that the Southern and Western boundaries of the district specified in the bill, namely the carriage road to Aberdeen, included within them two of the oldest villages on the island and even included the carriage road at Aberdeen.

The Surveyor General thought the Captain Superintendent of Police was under an apprehension.

His Excellency—He said—I explained at the first reading that the object of the Bill was to include a certain portion of the Hill District within the district to which the restrictions as to Chinese buildings under the Ordinance of 1888 apply.
